

LEAP for the COASTS

Volume 2 Issue 1
October 2022

turning pages of lasallian excellence

Official Publication of the
Lasallian Educational Assistance Program Office

L EAP joins this year's Coastal Clean-up held at Naic, Cavite last October 1. Spearheaded by the Lasallian Mission Office, the coastal clean-up is one of its Paglingap Projects that aims to concretize the Lasallian value of caring for the environment. Together with the members of Alternative Education's Lasallian Helping Hands and volunteers from different offices, the scholars also interacted with the local officials who gave a lecture on Pawikan Conservation, with Barangay Labac active on endangered marine turtles preservation and propagation.
